## **DETAILED ACTION**

### ***Drawings***

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference character "Table 1" has been used to designate both the table of 1999 IEEE 802.11 wireless standards and pre-selected repeater channels. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Allowable Subject Matter***

2. Claims 1-34 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or suggest a frequency translating repeater which in operation monitors a plurality of frequencies to detect a signal transmitted by a base unit on a first frequency channel, then analyzes the signal to determine which base unit is associated with the signal and then selects another frequency channel for

transmitting (retransmitting) data received from the base unit on the first frequency channel.

The prior art of record fails to teach or suggest operating a repeater by detecting signals on multiple frequency channels; identifying a wireless transmission on one frequency channel; preselecting a second frequency channel based on at least one rule; monitoring the second frequency channel for signals indicating the wireless transmission; and setting the repeater to function on the first frequency channel and the second frequency channel if the signals are less than or equal to a minimum value.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

4. This application is in condition for allowance except for the following formal matters:

The objection to the drawings, see paragraph #1, above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
